Standard Normal Areas Practice

Find each area under the standard normal curve. The shaded graph shows the area. Use the standard normal table, or a spreadsheet with `NORMSDIST`. The same problems are in NormalAreasPractice.xlsx (open it in Google Sheets with File → Import, or in Excel).

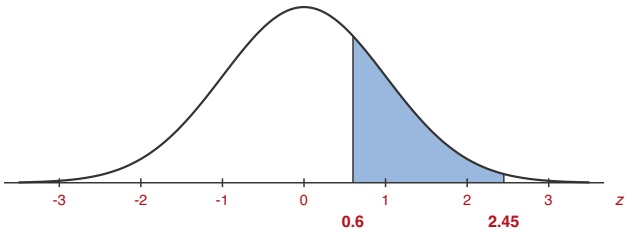

Area	Spreadsheet formula
Left tail area	`=NORMSDIST(z)`
Right tail area	`=1.0-NORMSDIST(z)`
Area between z_1 and z_2	`=NORMSDIST(z2)-NORMSDIST(z1)`

1. Find the right tail area for $z = 1.73$

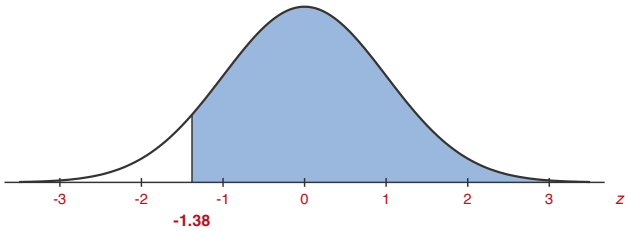

Area = _____

2. Find the area between $z = 0.6$ and $z = 2.45$

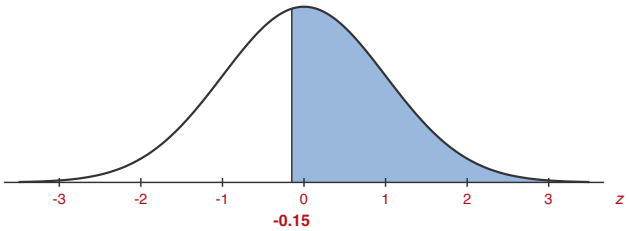

Area = _____

3. Find the area to the right of $z = -1.38$

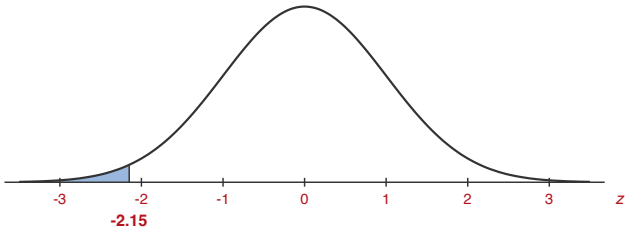

Area = _____

4. Find the area where $z > -0.15$

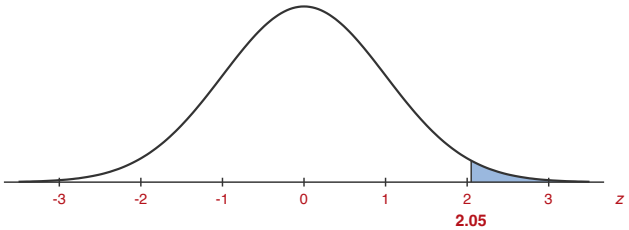

Area = _____

5. Find the left tail area for $z = -2.15$

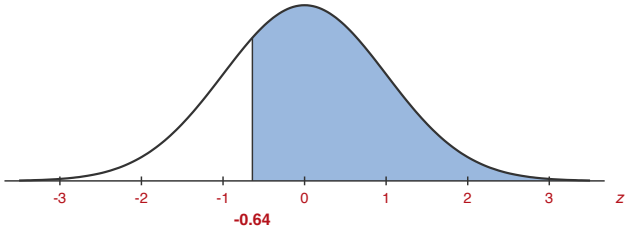

Area = _____

6. Find the area for z greater than 2.05

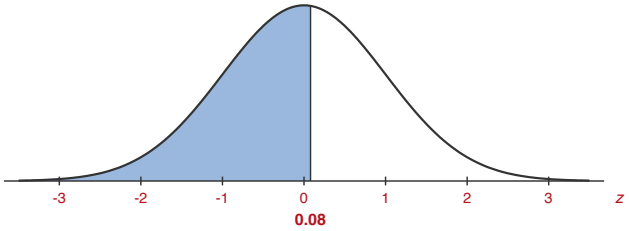

Area = _____

7. Find the right tail area for $z = -0.64$

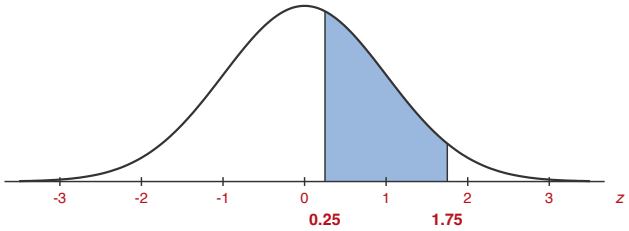

Area = _____

8. Find the area to the left of $z = 0.08$

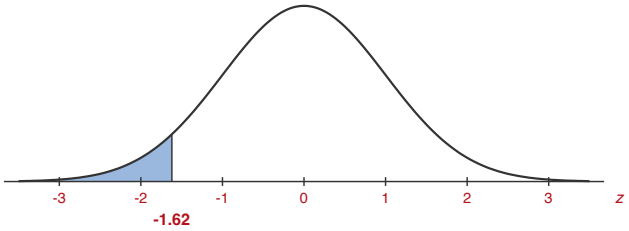

Area = _____

9. Find the area where $0.25 < z < 1.75$

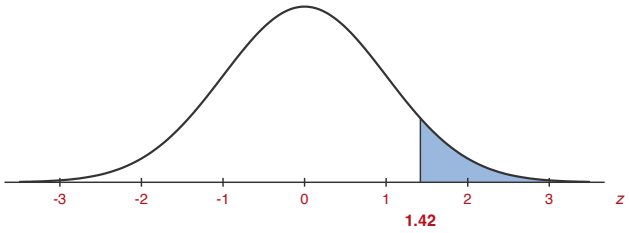

Area = _____

10. Find the area where $z < -1.62$

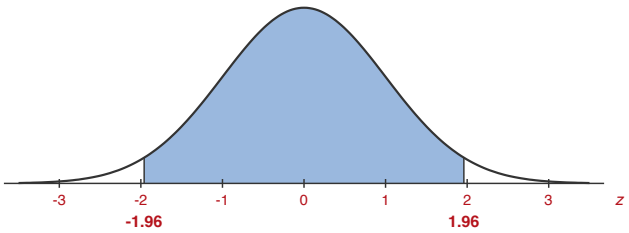

Area = _____

11. Find the area to the right of $z = 1.42$

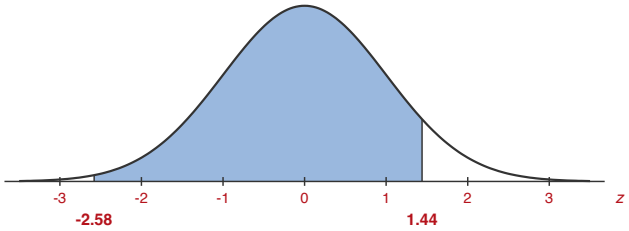

Area = _____

12. Find the area for z between -1.96 and 1.96

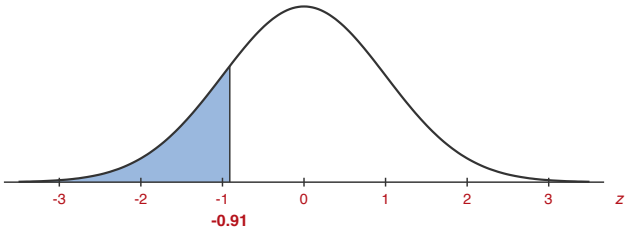

Area = _____

13. Find the area for z greater than -2.58 and less than 1.44

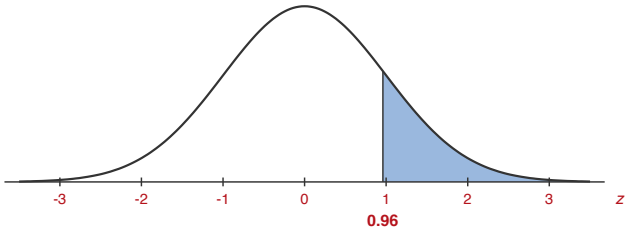

Area = _____

14. Find the area for z less than -0.91

Area = _____

15. Find the area where $z > 0.96$

Area = _____
