Standard Normal Areas Practice

Find each area under the standard normal curve. Use the standard normal table, or a spreadsheet with `NORMSDIST`. The same problems are in this spreadsheet: NormalAreasPractice.xlsx (open it in Google Sheets with File → Import, or in Excel).

Area	Spreadsheet formula
Left tail area	`=NORMSDIST(z)`
Right tail area	`=1.0-NORMSDIST(z)`
Area between z_1 and z_2	`=NORMSDIST(z2)-NORMSDIST(z1)`
